FOR RELEASE : NOON 1 JULY 1976

Reference No. 6.38

## LABOUR FORCE EXPERIENCE DURING 1975 (PRELIMINARY)

### MAIN FEATURES

- Two out of every three persons (67.2 per cent) in the civilian non-institutional population aged 15 years and over in February 1976 had been in the labour force at some time during 1975, either employed or looking for work. The proportion for males was 84.8 per cent and for females 49.9 per cent.
- Of those who had been in the labour force, 76.7 per cent had been in for the whole year.
- 810,500 persons had experienced at least one period of unemployment lasting a week or more. This was 12.4 per cent of all persons who had been in the labour force at some time during 1975. The proportion for teenagers was 32.8 per cent.
- Of persons who had been unemployed 418,800 (51.7 per cent) had been out of work for eight weeks or more in 1975. 146,400 (18.1 per cent) had been out of work for six months or more.

### EXPLANATORY NOTES

#### Introduction

In February 1976 a survey, based on the quarterly population survey, was conducted throughout Australia in order to obtain information about the labour force experience during 1975 of civilians aged fifteen years and over. Information obtained included the length of time (in 1975) during which persons were employed, unemployed or not in the labour force, the number of times they were unemployed and other aspects of labour force experience. The results of similar surveys relating to the years 1968, 1972 and 1974 were published in a series of bulletins entitled *Labour Force Experience* (all Reference No. 6.26).

2. This statement contains only a summary of the more important results of the survey. More detailed estimates, which will be published in a bulletin to be issued as soon as possible, are available on request. The estimates shown are preliminary and are subject to revision.

#### The population survey

3. The survey is based on a multi-stage area sample of private dwellings (about 30,000 houses, flats, etc.) and non-private dwellings (hotels, motels etc.), and covers about two-thirds of one per cent of the population of Australia. The information is obtained each quarter from the occupants of selected dwellings by carefully chosen and specially trained interviewers. The interviews are carried out during a period of four weeks, so that there are four survey weeks in each of the months to which the survey relates. These four survey weeks are chosen so as to fall within the limits of the calendar month or with minimum encroachment into the adjacent months.

#### Scope

4. The estimates relate to all persons aged 15 years and over, except persons in institutions, members of the permanent armed forces and certain diplomatic personnel customarily excluded from census and estimated populations. Persons in institutions are those who were patients in hospitals and sanatoria, or inmates of gaols, reformatories, etc., and for whom, for the purpose of the survey, the institution was regarded as their dwelling.

#### Definitions

5. Each person was assigned to a labour force category for each week in 1975 on the basis of his actual activity (i.e. whether working, looking for work, etc.) during that week. The principal categories appearing in the tables in this bulletin are as follows :

- (i) *Persons in the labour force.* A person was classified as having been in the labour force during any week in which he was employed or unemployed as defined in (ii) and (iii) below.
- (ii) *Employed persons.* A person was classified as having been employed during a week if, in that week, he :
  - (a) did any work for pay, profit, commission or payment in kind, in a job or business, or on a farm (including employees, employers and self-employed persons), or

- (b) worked fifteen hours or more without pay in a family business (or farm), or
- (c) had a job, business or farm, but was on paid leave (including sick leave).
- (iii) *Unemployed persons.* A person was classified as having been unemployed during a week if, in that week, he did no work at all, and either
  - (a) did not have a job or business and was looking for work, or
  - (b) was laid off from his job without pay for the whole week.
- (iv) *Persons out of the labour force* are all those who, in any week, were not in the categories "employed" or "unemployed", as defined above. For the purposes of this survey a person who was on strike and who did no work during a week was classified as out of the labour force in that week.

6. A person was classified as having worked mostly full time in 1975 if the number of weeks in which he worked 35 hours or more (*full-time work*) exceeded or was equal to the number of weeks in which he worked less than 35 hours (*part-time work*). If the number of weeks worked full time was less than the number of weeks worked part time he was classified as having worked mostly part time. When absent on paid leave (including paid sick leave) he was classified according to the usual hours worked in the job from which he was absent.

7. For the purposes of the survey, a *job* was defined as :

(i) employment as a wage or salary earner (or unpaid family helper) by a particular employer, in a particular locality; or

(ii) self-employment (with or without employees) in a particular locality.

#### **Reliability of the estimates**

8. Since the estimates in this statement are based on a sample, they may differ from the figures that would have been obtained from a complete census using the same questionnaire and procedures. One measure of the likely difference is given by the standard error, which indicates the extent to which an estimate might have varied by chance because only a sample and not the whole population was enumerated. Estimates with a standard error of more than about 20 per cent have not been shown as the degree of sampling variability would seriously detract from their value for most reasonable uses. Although in some cases figures for these small components can be derived by subtraction, they should not be regarded as reliable. More information on this topic, together with a table of estimated standard errors, is given in the quarterly bulletin *The Labour Force* (Reference No. 6.20.)

#### **Rounding**

9. Any discrepancies between totals and sums of components in tables are due to rounding.

TABLE 1. - CIVILIAN POPULATION (a), FEBRUARY 1976, BY EMPLOYMENT STATUS IN 1975  
('000)

| <i>Employment status (b)</i>                  | <i>Males</i> | <i>Married women</i> | <i>All females</i> | <i>Persons</i> |
|---|--------------|----------------------|--------------------|----------------|
| Civilian population in February 1976          | 4,811.4      | 3,257.6              | 4,893.0            | 9,704.3        |
| In the labour force at some time during 1975  | 4,078.3      | 1,597.9              | 2,439.7            | 6,518.1        |
| For the whole year                            | 3,487.5      | 957.6                | 1,514.6            | 5,002.1        |
| For part of the year                          | 590.8        | 640.3                | 925.1              | 1,515.9        |
| Employed at some time during 1975             | 4,020.3      | 1,550.1              | 2,349.0            | 6,369.3        |
| Mostly full time -                            |              |                      |                    |                |
| No part-time work                             | 3,805.7      | 925.5                | 1,553.6            | 5,359.2        |
| Some part-time work                           | 57.5         | 37.6                 | 56.8               | 114.3          |
| Mostly part time -                            |              |                      |                    |                |
| No full-time work                             | 136.3        | 556.7                | 690.4              | 826.7          |
| Some full-time work                           | 20.8         | 30.2                 | 48.2               | 69.0           |
| Number of jobs held during 1975 (c) -         |              |                      |                    |                |
| One   | 3,276.3      | 1,360.2              | 1,999.1            | 5,275.4        |
| Two   | 542.3        | 153.5                | 269.6              | 811.8          |
| Three   | 120.2        | 22.9                 | 47.4               | 167.6          |
| Four  | 38.0         | 6.5                  | 16.2               | 54.2           |
| Five  | 20.3         | *                    | 6.3                | 26.6           |
| Six or more                                   | 23.2         | 4.5                  | 10.5               | 33.6           |
| Unemployed at some time during 1975           | 440.2        | 185.8                | 370.3              | 810.5          |
| One period of unemployment                    | 326.8        | 149.9                | 301.6              | 628.5          |
| Two periods                                   | 54.0         | 14.9                 | 36.0               | 90.0           |
| Three periods                                 | 28.6         | 8.9                  | 14.7               | 43.3           |
| Four or more periods                          | 30.8         | 12.0                 | 17.9               | 48.8           |
| Out of the labour force for the whole of 1975 | 733.0        | 1,659.7              | 2,453.2            | 3,186.3        |

(a) Non-institutional population aged 15 years and over. For scope of survey see page 1, paragraph 4. (b) For definitions see page 1, paragraphs 5 to 7. (c) Not including second jobs of multiple job holders.

\* Less than 4,000. See page 2, paragraph 8.

NOTE. The estimates relate to the labour force experience in 1975 of persons covered by the survey in February 1976. Because of emigration, deaths and other exits not all persons with 1975 labour force experience were covered. Labour force experience may relate to experience outside Australia.

TABLE 2. - PERSONS IN THE LABOUR FORCE (a), BY AGE (b), 1975  
('000)

| <i>Age group (years)</i> | <i>In the labour force at some time during the year (c)</i> |                      |                    |                | <i>Average labour force (d)</i> |                      |                    |                |
|--------------------------|---|----------------------|--------------------|----------------|---------------------------------|----------------------|--------------------|----------------|
|                          | <i>Males</i>  | <i>Married women</i> | <i>All females</i> | <i>Persons</i> | <i>Males</i>                    | <i>Married women</i> | <i>All females</i> | <i>Persons</i> |
| 15 - 19                  | 400.1   | 30.6                 | 364.5              | 764.6          | 363.9                           | 23.3                 | 336.5              | 700.4          |
